## Customer Service Policy, Practice and Procedure

### (1) The Provision of Goods and Services to Persons with Disabilities

Universal Event Space will make every reasonable effort to ensure that its policies, practices and procedures are consistent with the principles of dignity, independence, integration and equal opportunity by:

- Ensuring that all customers receive the same value and quality;
- Allowing customers with disabilities to do things in their own ways, at their own pace when accessing goods and services as long as this does not present a safety risk;
- Using alternatives methods, when possible, to ensure that customers with disabilities have access to the same services, in the same place and in a similar manner;
- Taking into account individual needs when providing goods and services; and
- Communicating in a manner that takes into account the customer's disability.

**Best practices:** Universal Event Space employees and representatives will be encouraged to be pro-active in seeking solutions and removing barriers, as well as alerting all customers to the range of accommodations that are available.

The term "persons with disabilities" will be the norm, and if a specific condition must be referenced, the condition will be referenced last (e.g., person with low vision). The following are some general tips that may help make communication and interaction with or about people with all types of disabilities more successful:

Made with Love

- Remember to put people first. It is proper to say person with disability rather than disabled person or the disabled.
- It is best to wait until an individual describes his or her situation to you, rather than to make your own assumptions. Many types of disabilities have similar characteristics and assumptions may be wrong.

When Universal Event Space bills for services, it should demonstrate a commitment to providing accessible invoices to all of our customers. This means that invoices should be provided in alternate formats upon request (e.g., hard copy, large print, email) and that staff is prepared to answer questions customers may have about that content of the invoice.

## (2) Assistive Devices

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by Universal Event Space. In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the customer.

Best practices: Every employee will be trained on how to assist with various assistive devices, should their assistance be required.

## (3) Guides Dogs and Service Animals

A customer with a disability that is accompanied by a guide dog or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law. Dog Owners' Liability Act, Ontario: If there is a conflict between a provision of this Act of a regulation under this or any other Act relating to banned breeds (such as pit bulls) and a provision of a by-law passed by a municipality relating to these breeds, the provision that is more restrictive in relation to controls or bans on these breeds prevails. If a guide dog or service animal is excluded by law, Universal Event Space will try to offer alternative methods to enable the person with a disability to access goods and services, when possible.

Made with Love

Recognizing a Guide Dog and/or Service Animal: If it is not readily apparent that the animal is being used by the customer for reasons relating to his or her disability, Universal Event Space may request verification from the customer. Verification may include:

- A letter from a physician or nurse confirmed that the person requires the animal for reasons related to the disability;
- A valid identification card signed by the Attorney General of Canada; or,
- A certificate of training from a recognized guide dog or service animal training school.

Care and Control of the Animal: The customer/client that is accompanied by a guide dog or service animal is responsible for maintaining care and control of the animal at all times.

#### (4) Allergies

If a health and safety concern present itself, for example in the form of a severe allergy to the animal, Universal Event Space will make all reasonable efforts to meet the needs of all individuals.

Best Practices: Employees will be prepared to respond to requests of water for the service animal and to show the owner an outdoor area where the animal can be taken to relieve itself.

#### (5) Support Persons

If a customer/client with a disability is accompanied by a support person, Universal Event Space will ensure that both persons are allowed to enter the premises together and that the customer/client is not prevented from having access to the support person. All customer/client confidentiality requirements and practices will also apply to support persons.

#### (6) Training

Training will be provided to all employees at Universal Event Space; revised training will be provided in the event of changes to legislation Universal Event Space policy, practice and procedure. The Manor Event Venue will keep a record of training that includes the dates training was provided, the number of employees and names of employees trained.

Made with Love

The training will include information on the purposes of the AODA, requirements of this Service Regulation, how to communicate and interact with people with disabilities, how to interact with service animal or support person, how to utilize assisted devices that are available at our premises, what to do if a person has difficulty accessing Universal Event Space services or facilities, and our policies, procedures and practices pertaining to providing accessible customer service to people with disabilities.

## (7) Notice of Disruptions in Service

Service disruptions may occur due to reasons that may or may not be within the control or knowledge of Universal Event Space. In the event of any temporary disruptions to facilities or services that customers with disabilities rely on to access or use, reasonable efforts will be made to provide advance notice. In some circumstances such as in the situation of unplanned temporary disruptions, advance notice may not be possible.

Best Practices: Any service disruption will take top priority and Universal Event Space employees will check to ensure no one is trapped or stuck because of the disruption.

The notice should include statement of regret and include date.

## (8) Feedback Process

Universal Event Space shall provide customers/clients with the opportunity to provide feedback on the service provided to persons with disabilities. Information about the feedback process will be readily available to all customers/clients and notice of the process will be made available at location reception. Feedback forms along with alternate methods of providing feedback such as verbally (in person or by telephone) or written (hand written or email) will be available upon request.

Best practices: Customers/clients will be informed about the feedback process and how action will be taken if a complaint is received. Universal Event Space will acknowledge verbal/written/telephone feedback within two business days, and within fifteen business days of the receipt of a mailed/e-mailed complaint. In some cases, it may not be possible or appropriate to acknowledge feedback, for example, if the customer wishes to remain anonymous, or indicates that he/she does not want to receive an acknowledgment, Customers can submit feedback to:

## Universal Event Space Accessible Customer Service Principles

**Dignity:** The principle of respecting the dignity of a person with a disability means treating them as customers and clients who are valued and as deserving of high and timely service as any other customer. Persons with disabilities are not treated as an afterthought or forced to accept lesser service, quality or convenience. The delivery of goods and services must take into account how persons with disabilities can effectively access and use them.

**Independence:** In some instances, independence means freedom from control or influence of others-Freedom to make one's own choices. In other situations, it may mean the freedom to do things in one's own way. People who may move or speak more slowly or differently must not be denied an opportunity to participate in a program or service because of this. Staff must allow persons with disabilities to take the time they need, without rushing them or taking over a task for them if someone prefers to do it themselves in their own way.

**Integration:** The provision of goods or services to persons with disabilities and others must be integrated to allow persons with disabilities to fully benefit from the same services, in the same place and in the same or similar way as other customers. Integration means that policies, programs and services including practices and procedures are designed to be accessible to everyone, including persons with disabilities.

**Equal Opportunity:** Equal opportunity means having the same chances, options, benefits and results as others. In the case of services, it means that persons with disabilities have the same opportunity as others to obtain, use and benefit from the way goods or services are provided. They should not have to make significantly more effort to access or obtain services. They should also not have to accept lesser quality or more inconvenience.
